

Jane Hinchey Biography

Author Jane Hinchey writes sexy, snarky, badass paranormal romances because she has to, the characters in her head won't give her a moment's peace until she unleashes them into the world.

She's addicted to coffee, playing the Sims and Netflix.

A former corporate nerd, she now lives with her hottie of a man, two cats and a turtle in the city of churches {aka Adelaide, South Australia}. Writing soothes her author heart and gives her peace...and working from home barefoot and braless doesn't hurt either.

Born in the UK, Jane migrated with her family to Australia when she was two and grew up in outback South Australia, with no television, until she was eight years old. Instead she found her entertainment within the pages of books. She turned into an avid reader, with a vague dream that one day she'd become a writer. Then life got in the way. She got a 'real' job, married, and had kids. Life got busy, busy, busy and old dreams quickly got shelved.

After years away from writing, Jane put fingers to keyboard and finally wrote the novel she'd been dreaming about. That novel was First Blade. Jane now works as a Book Coach, helping fellow writers overcome their blocks when it comes to writing a book, and she's working on her next novel, an urban fantasy series called "Hells Gate". Book one is due to be released in 2016, if you want to be notified when it's released, make sure you're on Jane's email list.
